Hook for learning

VISITOR

23rd September

A visiting Knight, Sir Teachalot will deliver a medieval program which includes building castles, training to be a squire and jousting!

English

Following our visit from Sir Teachalot we will begin this topic by writing instructions for others who want to become a Knight. Over the half term we will also be doing some descriptive writing about castle related objects.

Maths

In maths this half term we will be learning about…

- Number and its place value

What is 79?

How an we use equipment to show my understanding of what 79 is?

- Addition and subtraction

How can I do this using equipment?

Can I add/subtract a 2digit number and ones? A 2 digit number and tens? Can I use equipment to help me? Can I show this in drawings?

- Missing number problems

How can I use what I know about number to work out the answer?

DT

After our visit from Sir Teachalot we will be designing our own coat of arms. After the design process we will select from a range of tools and equipment to sew our coat of arms.

HORRIBLE HISTORIES

Autumn 1 (7 weeks)

History

Our significant person: William the Conqueror

We shall be exploring people's roles within a castle. We will be re-enacting the Battle of Hastings and exploring artefacts, pictures, stories and online sources.

Geography

During this topic we will have opportunities to use world maps, atlases and globes and revisit the United Kingdom and it's countries.

RE

Our RE focus will be exploring Special places to ourselves and others.

Science

During this topic we will be exploring the properties of everyday materials. We will experiment with different materials top decide which would be best to build a bridge for a castle.
